

HOSPITAL AND REST HOME **COMPUTER DATA ENTRY**

**Fixed computers in accessible locations
are an important part of many nursing workflows**

Hospital and rest home computer data entry is increasingly becoming integral in today's nursing. Fixed computers in accessible locations are an important part of many nursing workflows.

The range of DPI Medical fixed workstations are specifically designed to fit unobtrusively into patient areas, providing a tidy, yet practical solution.

Quick and easy height adjustment is important to provide users with correct ergonomic positioning. All DPI Medical workstations come with a full 5-year warranty, confirming the long-lasting quality you are investing in.
